SUMMARY

A long time System Administrator and current Full Stack Web Developer with valuable technical experience combined together to make a difference through creative solution. With this outstanding long time IT experienced fused into technical creativity, has given me opportunity to work with project teams to create user-friendly and appealing application interfaces and websites for users. Met with project manager, business analyst and architect right from beginning of project, resulting into valuable outcome that showcase the knowledge brought forward from many aspect of IT.

TECHNICAL SKILLS

Technology: REACT.js, JSON, Express.js, SQL, MySQL, Node.js, VS Code, Terminal(Mac), Git and GitHub, Xcode (Mac), Homebrew (Mac), Heroku, JAVA, APIs, AJAX, .NET, JavaScript, JQuery, HTML5, CSS3 , Agile Methodology, MongoDB, GraphQL, ORM, Handlebars, Stripe, php, Python.

Applications: *Front and Back End Web Development*

Technology: MS AX Dynamics, Windows Active Directory, LDAP, Citrix, XenApp, RDP, VMWare, MS Office 365, HOST Analytics, IBM Controller, Atlas. Centric PLM, SCALE, Documentation of process (SOP), Load Balancing and AOS servers.

Applications: *ERP Systems/System Administration/Business and Finance Applications*

Technology: MTIPS, MNS, IP, ATM/Frame, Splunk, Wireshark, VoIP, INTAS, DS0, DS1, DS3, IP, VPN and MPLS network.

Applications: *Network Engineer/Analyst*

RELEVANT EXPERIENCE AND QUALIFICATIONS

Full Stack Web Developer - Freelancing

2019-Present (Minneapolis, MN)

Web Application

- Building dynamic web sites and web applications using MEARN stack.
 1. **Book Search App** - In this app, React components are created that works with helper/utilities functions, and utilize React lifecycle methods to query and display books based on user searches. This app also incorporate JavaScript, Node JS, Express and MongoDB, so that users can save books for review or purchase later.
Github Repository Link - <https://github.com/LMTrain/booksearch>
Deployed Link - <https://lmbooksearch.herokuapp.com/>
 2. **Personalized e-commerce Storefront (PeCom)** - This is a personalized e-commerce storefront that functions like Amazon storefront, but one step different (users personalized page). It uses MongoDB for storing, retrieving and updating orders. The app uses Walmart APIs for searching items, orders can be save for later purchase, delete, or proceed to purchase. PeCom is more of a data driving app in terms of personalizing the layout for user's experience. Each user that has an account will have different page layout base on how they customize their page. This will be reflected in every page they visit in the app.
Github Repository Link - <https://github.com/LMTrain/lmpecom>
Deployed Link - <https://lmpecom.herokuapp.com/>
 3. **Department e-commerce App (Femmit)** - This is an e-commerce app for small scale department store. It was build using GraphQL, Stripe, and the Headless CMS Strapi in record time connecting to MongoDB.
Github Repository Link - <https://github.com/LMTrain/femmit/>
Deployed Link - <https://femmit.herokuapp.com/>

4. **Crypto Currency DashBoard** – Building beautifully fast Crypto Currency Dashboards with React, Context API, styled-components & CSS Grid.

Github Repository Link - <https://github.com/LMTrain/cryptodash>

Deployed Link - <https://lm-cryptodash.herokuapp.com/>

5. **Clicky Game** – A clicky game build with React. This is a memory game with React. This game require the developer to break up the application's UI into components, manage component state, and respond to user events.

Github Repository Link - <https://github.com/LMTrain/clickygame>

Deployed Link - <https://lm-clickygame.herokuapp.com/>

- Use Jenkins for integration, building, testing and deploying of many of the projects worked on.
- Troubleshoot and debug many related issues using VS Code, Chrome and React Developer Tools, and Node JS Inspector.

ADDITIONAL EXPERIENCE

ERP / System Administrator - Vista Outdoor Inc. 2015 - Present (Anoka, MN)

- Business / Finance Application Support –Atlas, Blackline, HOST and IBM Controller
- MS Dynamics AX 2012 R2 and R3.
 - Project – AX Migration to new R3 Citrix Environment.
- MAX AX Code Promotion via TFS
- Citrix Farm – Support and maintain Load balancing, AOS and Batch servers
- Manufacturing Applications – BlueSar, Centric PLM and SCALE, all integrated in the ERP System.
 - Project - BlueStar implementation and configuration in new R3 Citrix environment.

Network Operation Technician II - CenturyLink 2015 – 2018 (St. Paul, MN)

- Network monitoring using Solar Wind
- Using INTAS, and CLI access to isolate layer 1 problems on DS0, DS1 and DS3 circuits on the IP platform.
- Remote and manage Cisco, Juniper, Shasta routers.
- Troubleshooting and resolving DS0/1 and 3 circuits: point to point, private line, and Ethernet.
- Network Penetration testing.
- Packet sniffing for signs of anomalies using Wireshark.

System Administrator/Network Analyst - Cenvo Corporation 2010 – 2015 (Minneapolis, MN)

- Remote Desktop using VMware Remote Client, VNC, and MS Remote Assistance.
- Remote Support on Citrix environment : XenMobility, XenApp, XenDesktop, Edgesigh.
- Setup and configuration of RSA SecurID and authentication process.
- Active Directory (Windows 2016, 2012, 2008 R2 and 2003 Server)
 - Management of user and workstation configuration options through Group Policy (GPO).
 - Interoperation with other directory services, such as legacy Windows NT domains.
 - Administration of DNS and DHCP functions within a network.
 - Active Directory Backup
 - Support for open directory standards, including LDAP and X.500.

Citrix Remote Support / Application Analyst - BestBuy 2013 – 2014 (Richfield, MN)

- Citrix Application Support and implementation.
- Remote Desktop using VMware Remote Client, VNC, and MS Remote Assistance.
- Remote Support on Citrix environment : XenMobility, XenApp, XenDesktop, Edgesight.
- Monitoring problems in Citrix environment.

PC Tech/IT Support - Cargill 2007 – 2010 (Hopkins, MN)

- PC reimages using Symantec Ghost.
- Operating System Support – Windows Platform, and Mac Platform.

- Application Support - MS Office Suite, Adobe Design Standard & Premium, SAP, Office Mac
- Setup and administer computer accounts and passwords (Windows Server 2000 – 2008 R2 server).

Field Tech/Desktop Support - Dell / Park Nicollet

2000-2007 (St. Louise Park, MN)

- Issue and update tickets using Vantive ticket System.
- PC Migration, setup and networking of workstations.
- PC reimages using Symantec Ghost.

WEB APPS PROJECTS

Project: **Clicky Game** | Github: <https://github.com/LMTrain/clickygame> | Deployed: <https://lm-clickygame.herokuapp.com/>

This is a clicky game build with React. This is memory game with React require the developer to break up the application's UI into components, manage component state, and respond to user events through data driven.

Technology used: REACTjs, Nodejs, Express, BootStrap, CSS3, JavaScript, JSON.

Project: **Movie App** | Github: <https://github.com/LMTrain/movie-app> | Deployed: No

Using Next.js (Next 9), React (React 16+) and Node to build a Movie app, an Isomorphic Website, including SEO, Blog, Deployment..

Technology used: Next 9, REACTjs, Nodejs, Express, BootStrap, CSS3, JavaScript, JSON.

Project: **Crypto Currency Dashboard** | Github: <https://github.com/LMTrain/cryptodash> | Deployed: <https://lm-cryptodash.herokuapp.com/>

Building beautifully fast Crypto Currency Dashboards with React, Context API, styled-components & CSS Grid. The app allow users to Sets Page with Intro greeting, Providing a default 5 coins as favorites & a complete list of all coins, Adding/Removing coins on the list of favorites, Generates dashboard prices & historical data and Easily configure the apps theme to be dark or light.

Technology used: REACTjs, Nodejs, API, CSS, JavaScript, JSON.

EDUCATION

Online Training: Code Academy and Udemy Online

2019-2020

- Programming Language – JAVA, Python, JavaScript, REACT, ANGULAR, C##, .NET

Bootcamp Certificate: University Of Minnesota, St. Paul, MN

2019

- **Full Stack Web Developer** - A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, NodeJs, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Masters in Management Information Systems: Metropolitan State University, St. Paul, MN

2015

Information Assurance (Security) Graduate Certificate: Metropolitan State University, St. Paul, MN

2014

Bachelor Degree in Network Administrator: Metropolitan State University, St. Paul, MN

2012

Minor in Organizational Communication: Metropolitan State University, St. Paul, MN

2012

AAS in Network Administrator: Hennepin Technical College, Brooklyn Park, MN

2009

Certifications - CompTIA Network+, Security+, A+, and Dell Certified System Expert

2003-08
